

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CONDITIONS OF REGISTRY FOR VOL. III.

FIRST ENTRY, JANUARY 1, 1895. LAST ENTRY, MARCH 12, 1906.

Section 1. FOR REGISTRATION OF IMPORTED HACKNEYS.

All Horses "registered" or "entered" in the English Hackney Stud Book shall be eligible for record in the corresponding classes in the American Hackney Stud Book, namely:

(a) Horses "registered" in the English Stud Book shall be eligible for "full registry" in the American Stud Book.

(aa) Pony Stallions "registered" or "entered" in the English Hackney Stud Book shall be eligible for "full registry" in American Hackney Stud Book.

(b) Horses "entered" in the English Stud Book shall be eligible for "half registry" in the American Stud Book.

(c) Mares recorded as "Inspected" in the English Stud Book shall be eligible for record in the list of "Inspected Mares" in the American Stud Book.

EXCEPTION. — Stallions "entered" in the English Stud Book and imported after Oct. 1, 1891, shall not be eligible for record in the American Stud Book. (This does not apply to Pony Stallions.)

Section 2. FOR REGISTRATION OF HACKNEYS BRED IN AMERICA.

(1) A Stallion shall only be recorded in the "full registry" class, and to be eligible must be out of a "full registered" Dam, and either by a "full registered" Sire or by an English "entered" Sire imported prior to Oct. 1, 1891, and "half registered" in the American Hackney Stud Book, or by a "full registered" pony stallion.

(2) A Mare by a "full registered" Stallion, and out of either a "full registered" or "half registered" Dam, shall be eligible for "full registry."

(3) A Mare by a "full registered" Stallion, and out of an Inspected Mare, shall be eligible for "half registry."

(4) A Mare by an English "entered" Stallion, imported prior to Oct. 1, 1891, and "half registered" in American Stud Book, out of either a "full registered" or "half registered" Dam, shall be eligible for "full registry," and if out of an "Inspected" Dam shall be eligible for "half registry."

(5) A Mare by a "full registered" Stallion, out of an uninspected Mare, may be inspected, and, if passed, shall be eligible for "half registry."

REGULATIONS RELATING TO ENTRIES.

The name of any place may form part of a distinctive name of Stallion or Mare. In case the name given is in use or claimed, the Secretary will furnish a name; and if, upon receipt of the Certificate of Entry, the name should not be satisfactory to the applicant, the certificate must be returned at once for correction, accompanied by a list of names in the order of preference. Breeders may claim names in advance by sending them to the Secretary, who will notify them which of the names sent are not in use or claimed, and will reserve them for their future use, but no name can be caveated for a longer period than two years unless it is reclaimed by the person who holds it.

The Application Form must be duly signed by the person making the entry in the Stud Book, and no Stallion or Mare foaled in the United States will be received for insertion unless the Certificate at the foot is *also* properly filled up and bears the *additional signature* of the *Breeder* of the animal. It will greatly facilitate the issue of the Stud Book if entries are made at *once*. If the animal was imported prior to July, 1888, date English transfer system was inaugurated, the regular importation papers as sworn to before the custom house authorities must accompany application, but if the animal was imported after July, 1888, the Export Certificate from the English Hackney Society must be forwarded with this application, and, after due inspection by the Secretary, will be returned to the owner with Certificate of Entry.

COLOR AND MARKINGS. — The General Color must in every case be given, also where the white or black markings are — forehead, nose, fore and hind legs above fetlock and below knee, and coronet. When there are no markings on the animal the general color will be stated with the word "Solid" added.

STUD BOOK FEE. — For registering a Stallion, \$3.00. For a Mare, \$2.00. Non-members double fees. Transfers are registered at \$2.00 for Members, \$3.00 for Non-members.

PRICE OF STUD BOOK. — Vol. I., \$5.00; Vol. II., \$3.00; Vol. III., \$5.00.

MEMBERSHIP. — Initiation Fee, \$10.00; Annual Dues, \$5.00. Life Members, \$50.00.

Application blanks and all information to be obtained from the Secretary, and communications to be addressed
